

# Pebble Hill Plantation Green Arrow Tour Map

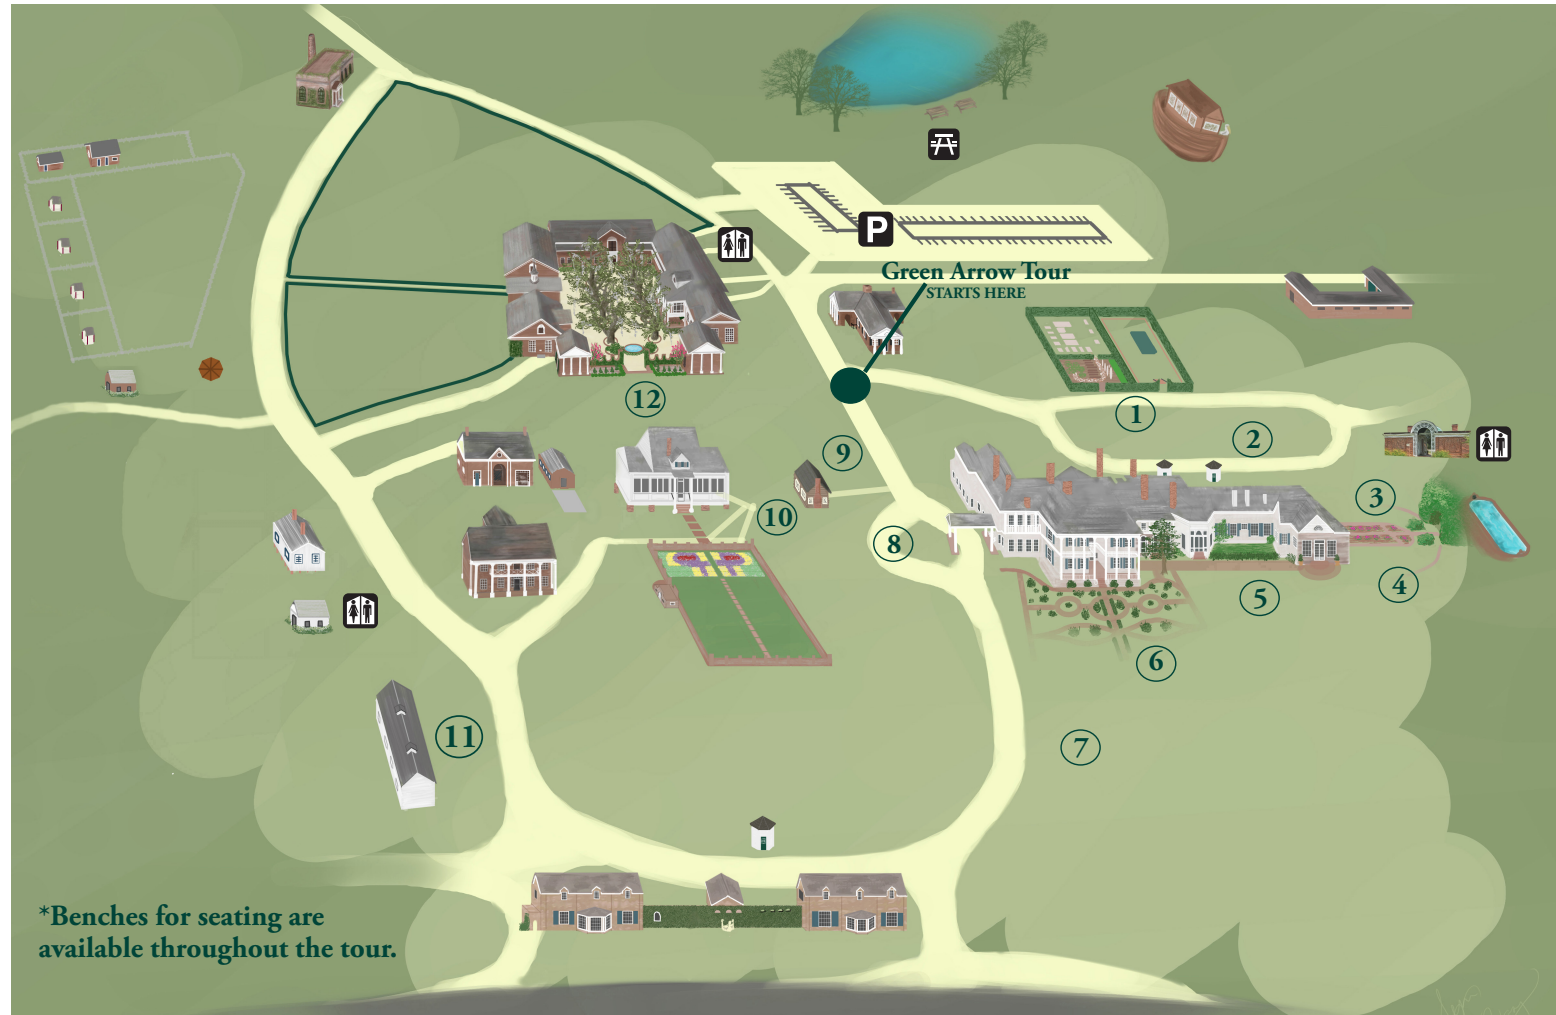

Made possible by a matching grant from the Garden Club of Georgia, Inc. and Thomasville Garden Club, Inc., the Green Arrow Tour is a self-guided historic landscape tour that highlights and interprets twelve locations featuring historic and native plantings throughout Pebble Hill's main grounds and gardens.

In the late 1920s and early 1930s, Pebble Hill owner Kate Hanna Harvey commissioned Cleveland, Ohio landscape architect, Ethelwyn Harrison, to develop a master plan for Pebble Hill. Her goal was to create a setting in the English formal style that would be most pleasing in winter and early spring when the Hanna family was in residence and welcoming house guests. Miss Harrison's plan resulted in an overall design that showcased beautiful vistas throughout the property and remains in the Pebble Hill archives today along with her detailed notes regarding care and maintenance of the plantings.

## GREEN ARROW TOUR STOPS:
